Splitzy IQ

An assistive interface with transparent explanations and user control.

Contextual insights

* **Spending rhythm**
  Dining is lower by 14% vs. last sample month.

* **Savings nudge**
  What if you add $50 to monthly deposits?

* **Settle efficiently**
  Three open balances could be reviewed today.

SPLITZY IQ / ASSIST

Ask a financial question

- Where did my money go?
- What if I save more?
- Who should I settle with?

Guidance is explainable;
no automatic transactions.

Human confirmation always.

Responsive behavior & premium motion

Desktop (>= 1100px)

Pinned navigation, 12-column content grid, three metric cards, floating AI assistant.

Tablet (710-1099px)

Collapsed icon rail, two-column cards, shorter labels and constrained side panels.

Mobile (< 710px)

Bottom navigation, single-column cards, full-width forms and accessible modal scroll.

Motion tokens

Page entrance: 400ms ease-out; card hover: 200ms; floating symbol: 5s ambient loop.

Accessibility

Focus-visible controls, contrast-first content, clear loading states, reduced-motion mode.

Engineering handoff

React 19 + TypeScript, tokenized components, strict amount validation and audit-friendly flows.
